Washington Association of Educational Office Professionals presents
a full-day Professional Development Program
Designed Specifically for School Office Employees

Active Shooter Response Training

ARE YOU FEELING CONCERNED ABOUT THE SHOOTING INCIDENTS TAKING PLACE ALL AROUND YOU? DO YOU FEEL VULNERABLE TO A POSSIBLE SHOOTING INCIDENT THAT COULD HAPPEN AT YOUR SCHOOL? DO YOU FEEL PREPARED? AWARENESS IS A BIG PART OF PREVENTION AND REACTION TIME.

WHAT WILL BE TAUGHT AND WHAT WILL YOU LEARN?

- We will address and reduce denial.
- We will look at ways to foresee this event coming, and the steps we (and our schools) can take to prevent it from ever happening.
- We will reduce fear in the worst case scenario (it's actually happening).
- We will teach you the three correct responses (in order) during an actual event that will increase your chances of survival (and that of others). This will be tailored specifically to a school office setting.
- We will teach you how the mind works tactically, teaching hands-on principles regarding defensive tactics and disrupting an aggressor's processing ability.
- We will give a full-scale view to an active shooter / violent intruder event, including the mind of the aggressor, the mind of the victim, the response of the police, and the challenges of returning to normal.
- We will reduce fear and empower the attendees. (I said it twice because its the most important).

ABOUT TACTICAL TRAINING ACADEMY

The Tactical Training Academy (TTA) is a Washington State based organization that specializes in quality tactics training. As a cadre of current and former law enforcement and military trainers, they are acclaimed internationally as a training organization and work with law enforcement, security, and government agencies as much as they work with the public. MISSION: Our entire mission is to provide professional level safety training at rates the average person and companies can afford. These funds are then repurposed back into our non-profit outreach, The Underground, to provide free training, awareness, and healing for our local communities, local agencies, and international agencies who are at risk. Unfortunately, it seems like everyone (whether they like it or not), is now at risk of danger: in the workplace, in the public, and at home. More about TTA at <http://www.training-academy.org/>.

WAEOP Area 4 Professional Development Day

Presenters

GREG is a Master Instructor with the Tactical Training Academy and instructor with the WA State Criminal Justice Training Commission, and a full-time safety/risk manager at a local WA State school district. He is recognized as a certified

master instructor on an international scale through numerous training programs and has provided Emergency Response training to companies and corporations around the globe. Greg has been training in advanced tactics for over 15 years. He has used nearly all of his trained skills in the field as a Police Officer, Executive Protection Specialist, and Armed/Unarmed WA State Certified Trainer.

STEVE Steve is one of the TTA lead instructors. As a practiced speaker and author, Steve has executed advanced active shooter and violence mitigation training programs, from law enforcement

personnel to local magistrates. He is certified in courses through the Department of Homeland Security. While not teaching with TTA, Steve is an avid horseman. More than anything, Steve believes in teaching the tactics of being fully alive in any circumstance: in heart, mind and body.
